

We have had a very exciting year in the Early Years class. Our activities and lessons are organised to begin the important steps we must take to develop our foundations in English, numbers, Spanish and IT.

We started off the year with the topic 'Ourselves' and had a visit from Nurse Christine and baby Emily. The imaginative area was turned into a hospital in which some major operations were performed. The children did a beautiful 'Snowflake' dance for the Christmas production which may have brought a few tears to many parents' eyes.

Caroline

During the Spring term a circus came to the EY class but unfortunately, Giggles, our clown, forgot to feed the animals one weekend and they all escaped. Luckily we managed to track most of them down in the woods and brought them back to class.

Under the Sea was our topic for the Summer term and the children have enjoyed learning about sea creatures. We went on a trip to a garden Centre and also to a sea life rescue centre which all the children enjoyed. Our assembly was a great success and all the children spoke in loud voices and acted their parts beautifully.

We have had such a busy year learning new skills and having fun, and the children are now ready to move onto to the Reception class with confidence.
