**Castle Newsletter**  
February 2005

**Introduction**  
Welcome to the most exciting magazine. Castle Newsletter. I imagine I spend all my time in a castle. You might think it's boring but I don't. You can get bored, play in a and exploring. You can also find things out. I could ride horse all my life. The castle are really do out there and ugly. I've really nice. I would like to go in a hall where the king and queen are. I have found from Jewellery to Entertainment. This is the best thing from the year and I'm glad to

**Ingredients**  
1 glittery red heart  
1 Stone  
1 beautiful flower  
2ml of water  
1 bit of rain

**Method**  
1 Get a cauldron and a magic wand.  
2 Put the Stone and the water in the cauldron.  
3 Pick the petals off the flower, add the stem. Separately, a heart and the juice, next add the rain. or 10 hours.  
4 Use the wand and say "huddle, cuddle his person in love!"

**Why were castles built?**  
Castles were built to protect lands and treasures. Castles also were to live in and lots of people lived all them. But a quite important thing is that they kept people safe inside the castle. I bet you know about castles now!

**Why did she look after the castle?**  
Baron Godfrey he saves the castle. We don't have servants live to save other people.
